The meter box has different specifications and applicable occasions. Choosing the right meter box can give full play to the product's maximum function and efficiency. At present, the watch boxes on the market mainly have three types: plastic material, glass fiber reinforced plastic material, metal material, and so on. The stainless steel meter box is made of cold-rolled steel plate or stainless steel plate by bending and welding. The upper and lower sides of the shell are equipped with movable knock-out holes, and cover sealing measures are adopted. The grounding terminal is installed inside the box to facilitate the wiring of the terminal box.

Product Parameters

Single Door

Outdoor

Surface

Flush

Specification	Width(mm)	Height(mm)	Depth(mm)	
			Mechanical instrument	Electronic instrument
1 households	220	250	150	120
2 households	350	250	150	120
3 households	480	250	150	120
4 households	350	500	150	120
6 households	480	500	150	120
8 households	600	500	150	120
10 households	750	500	150	120

Double Door

Specification		Width(mm)			Height(mm)	Depth(mm)	
		W	W1	W2		Mechanical instrument	Electronic instrument
Open the door left and right	1 households	400	200	200	250	150	130
