Product Description

Product Description

This TB Series screw fixed barrier terminal block provides a simple way to connect wires to a single connection point. These blocks allow wires to be screwed together and self-isolated without needing to twist, solder or any other splicing, by this method wiring can adjusted at anytime just as easy as it was the first time.

Each position block offers a screw pitch of 10mm with a max current 15A /25A/45A/60A/100A and a max voltage tolerance of 600V before risking meltdown or implosion. Small pitch to save space, low structural height, Large wiring capacity, can be connected to the section area of 4mm² flexible wire. The plug socket is protected against wrong insertion and dislocation.
