Product Description

Product Description

AP NEW GENERATION OF ENERGY SAVING CRIMPING PLIERS

Applicable for non-welding and standard electric connection, new leverage design, saves at least 35% energy compared to common crimping tools.

Precise crimping die sets and integral lock with self releasing mechanism ensure high-quality crimping effect after crimping repeatedly. All the key parts of the energy saving crimping tools have been specially hardened. The tools are with the features of high effectiveness and long using lifetime.

Favorable balance of the barycenter, angle press top and handle shape design meeting human being engineering principle make the operation easier and convenient.

先把端子按规定的压口放好
Put the terminal in relevant die set firstly

接着把已剥皮绝缘导线放进端子
Then put the stripped insulated conductor into the terminal

只需稍稍施加两手的压力就能完成压接
Press gradually and crimping well
