Product Description

Product Description

UKF isolator is rigidly built to withstand more than just the vagaries of the water, it is designed also for frequent switching even on severe load such as switching of motor loads or other highly inductive load. Suitable to be mounted in outdoor and indoor for diverse environment.

The UKF Series of weather protected isolating switch is a robust range of switch suitable for virtually any external application. Included in the range is single, double and triple pole switches from 20 to 63A.

The base mounted mechanism provides for easier termination and more wiring room

UKF series of weather-resistant isolator wide range of applications, suitable for any outdoor application conditions. Including unipolar, bipolar, and three-pole switch, current use of 20A ~ 63A.

Installed base of devices provides a more easy termination and more wiring space. (Switch size is 165mm × 82mm, overall height 85mm.)

Install ground and neutral bars with dual clamping screws to connect the same cable clamp strip length and reliable. Terminal aperture 5-6mm.

More secure, installation switches to a metal structure with an insulating cap, insulating cap covering the base mounting screws to prevent their exposure to energized cables.

Each unit supplied with screwed conduit plugs and screwed reducers for easy connection to 25mm or 20mm conduits and screw caps. Screw caps must be installed to ensure IP Rating.

The impact Resistant base and cover will survive the hardest knocks in almost any installation. The two sections are sealed with a one piece weather seal gasket.

For security, a 7mm diameter hole is provided for padlocking the lever in the OFF position. Deep moulded barriers protect the operating lever from physical abuse or accidental switching.

All units comply to IEC60947-3.

Standard colours are Grey & White.
