

Greaseproof 3 Holes Nylon Cable Gland Thread Type With Different Sizes

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Golden Electric /OEM
- Certification: ISO 9001, ISO 9000, ISO 14001, ISO 14000, ISO 20000, OHSAS/ OHSMS 18001, IATF16949
- Minimum Order Quantity: 1
- Packaging Details: Carton/Pallet
- Delivery Time: Peak Season Lead Time: more than 12 months
Off Season Lead Time: within 15 workdays
- Payment Terms: LC, T/T, PayPal, Western Union
- Supply Ability: 5000/Month

Product Specification

- Sealing And Sealing Ring: NBR
- Thread Type: NPT
- Function: Waterproof/ Air Proof/ Gas Proof
- Work Temperature: -40°C-100°C
- Certificate: CE, RoHS, IP68, TUV, ISO9001
- Transport Package: Ocean Freight Box Packing+Carton+Pallets
- Specification: Different Sizes And Specifications
- Trademark: Golden Electric Or Customize
- Origin: China
- HS Code: 7318190000
- Supply Ability: 5000/Month
- Model Number: M / Pg / NPT / G
- Protection Level: IP68
- Material: Nylon
- Product Name: Multi-Wiring Insert Cable Glands

Product Description

Company

Profile

GoldenElectricCo., Ltd.

is professional make of Electrical products .Such as distribution box, waterproof plug, socket, wall switch, waterproof plastic ,Aluminum box ,Changeover Switch and disconnecting switch,MC4 Connector.isolator switch.fusebreaker.distribution box,PV combiner box .surge protector, Indicatorlamp,Solar Charge Controller,Industrialplugandsocket,BusbarInsulator,Meter Socket,Wind Turbine, Terminal Block,Solar product and so on. all products comply with IEC, A S/NZS standard. passed CE, IP66, ROHS certificates.at present we have exported to many countries and have serve these customers with professional electrical solution

Product Description

Product Name:	Multi-hole cable gland
Main material:	Nickel-plated brass
Standard size:	M / PG / NPT / G
Certification:	RoHS, CE, TUV, IP68, ISO9001
Notes:	Customization service is available

Actually, it is also called explosion-proof cable sealing joint or cable explosion-proof gland, but the terms are different, and the products are all corresponding to each other. They are all introduced devices added to the cables, which play a role in waterproofing, explosion-proof, dustproof, fastening, and compressing the cables. We generally recommend using explosion-proof cable glands in harsh environments, such as dust stricken areas (such as wooden shoulders, flour factories, cigarette factories, polishing workshops, etc.) and corrosive environments (such as chemical enterprises, shipbuilding, chemical industries, etc.), And the places we come into daily contact with (gas stations, gas stations, gas stations, etc.).

Dangerous moments envelop our environmental safety, so we must strengthen our awareness of safety. We should not be greedy for cheap goods or have weak safety awareness, which can lead to big mistakes. We should always be vigilant and vigilant. Do not act recklessly based on small matters, do not act recklessly based on complexity, do not act blindly based on urgency, and do not be afraid of difficulties.
